RCD/MCB combination, 13 A, 300 mA, MCB trip characteristic: C, 1p+N, RCD trip characteristic: AC  $\,$ 

Part no. FRBMM-C13/1N/03-G 170581

Similar to illustration

| General specifications                              |   |
|---|---|
| Product name  | Eaton Moeller series xEffect - FRBm6/M RCBO - residual-current circuit breake with overcurrent protection |
| Part no.  | FRBMM-C13/1N/03-G   |
| EAN   | 4015081673421   |
| Product Length/Depth                                | 80 millimetre   |
| Product height                                      | 75 millimetre   |
| Product width                                       | 35 millimetre   |
| Product weight                                      | 0.189 kilogram  |
| Compliances   | RoHS conform<br>CE Marked   |
| Certifications                                      | EN45545-2<br>CE<br>IEC 61373  |
| Product Tradename                                   | xEffect - FRBm6/M   |
| Product Type  | RCBO - Residual-current circuit breaker with overcurrent protection                                       |
| Product Sub Type                                    | None  |
| Delivery program                                    |   |
| Application   | Switchgear for industrial and advanced commercial applications  |
| Product range                                       | FRBmM   |
| Basic function                                      | Combined RCD/MCB devices  |
| Number of poles                                     | Single-pole + N   |
| Number of poles (protected)                         | 1.  |
| Number of poles (total)                             | 2   |
| Tripping characteristic                             | С   |
| Release characteristic                              | С   |
| Rated current                                       | 13 A  |
| Fault current rating                                | 0.3 A   |
| Sensitivity type                                    | AC current sensitive  |
| Туре  | RCBO  |
| Fechnical Data - Electrical                         |   |
| Voltage type  | AC  |
| Voltage rating                                      | 240 V - 240 V   |
| Rated operational voltage (Ue) - max                | 240 V   |
| Rated insulation voltage (Ui)                       | 500 V   |
| Rated impulse withstand voltage (Uimp)              | 4 kV  |
| Rated fault currents of product range               | 10, 30, 100, 300 MilliAmpere  |
| Impulse withstand current                           | Surge-proof, 3 kA   |
| Frequency rating                                    | 50 Hz   |
| Leakage current type                                | AC  |
| Rated switching capacity                            | 10 kA   |
| Rated switching capacity (IEC/EN 61009)             | 10 kA   |
| Rated short-circuit breaking capacity (EN 60947-2)  | 15 kA   |
| Rated short-circuit breaking capacity (EN 61009)    | 10 kA   |
| Rated short-circuit breaking capacity (EN 61009-1)  | 10 kA   |
| Rated short-circuit breaking capacity (IEC 60947-2) | 15 kA   |
| Surge current capacity                              | 3 kA  |

| Disconnection characteristic   | Short-time delayed   |
|--|--|
| Tripping   | Short time-delayed   |
| 11 2   | · ·  |
| Pollution degree   | 2  |
| Technical Data - Mechanical  |  |
| Width in number of modular spacings  | 2  |
| Built-in depth   | 75.5 mm  |
| Degree of protection   | IP20   |
| Connectable conductor cross section (solid-core) - min                           | 1 mm <sup>2</sup>  |
| Connectable conductor cross section (solid-core) - max                           | 25 mm <sup>2</sup>   |
| Connectable conductor cross section (multi-wired) - min                          | 1 mm <sup>2</sup>  |
| Connectable conductor cross section (multi-wired) - max                          | 25 mm <sup>2</sup>   |
| Design verification as per IEC/EN 61439 - technical data                         |  |
| Rated operational current for specified heat dissipation (In)                    | 13 A   |
| Heat dissipation per pole, current-dependent                                     | 0 W  |
| Equipment heat dissipation, current-dependent                                    | 3.4 W  |
| Static heat dissipation, non-current-dependent                                   | 0 W  |
| Heat dissipation capacity  | 0 W  |
| Ambient operating temperature - max  | 40 °C  |
| Ambient operating temperature - min  | -25 °C   |
| Design verification as per IEC/EN 61439  |  |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |
| Additional information   |  |
| Current limiting class   | 3  |
| Features   | Anti-nuisance tripping version   |
|  | Concurrently switching N-neutral   |

## **Technical data ETIM 9.0**

Circuit breakers and fuses (EG000020) / Earth leakage circuit breaker (EC000905)

Electric engineering, automation, process control engineering / Electrical installation, device / Residual current protection system / MCB/RCCB combination (ecl@ss13-27-14-22-07 [AFZ810020])
